2. Improving the performance, sustainability and resilience of smallholder farming systems

Our 2030 target is to double productivity and income of 8 million small scale food producers and to convert 8 million hectares of farmland to sustainable land use.

Indicators

Description how the activity contributes to the result area Improving the performance, sustainability and resilience of smallholder farming systems
Measurements: Good land stewardship and resilient farming systems are scaled up and promoted through the PIP approach.

- Individual result: Via complementarity main work approaches: Integrated Farm Planning (PIP), Integrated Water Resources Management (IWRM) within the catchment, Value Chains/cooperative development, Inclusive Governance and access to land..
  Comment:
- Individual result: TRIDE works with the PiP approach. In fragile and conflict affected regions, this approach is effective because it focuses on intrinsic motivating SHF and families/cap building. In addition TRIDE works on access to land and land rights SHF.
  Comment: Baseline, TRIDE annual reports
