Finance

Based on the analysis of IFDC as a reliable partner of the Ministry with a long track record in Benin and surrounding countries, especiall because IGG has concluded an GRM (general relation management) with IFDC, and in addition the conclusion that ACMA 3 is a project without specific (management and finance risks), it is desirable to bring the contribution in line with general accepted principles of the ministry and allow the payment of advances up to 12 months.
The total budget for this activity has been adjusted to euros 20,610,950 including:
- euros 20,360,950 of commitment with IFDC. Indeed, euros 360,950 has been added to the initial budget of 20,000,000 to enable the collaboration of IFDC with a Dutch company, Terranauta, This collaboration consists in supporting the small scale farmers to produce biofertilizers to upgrade soil quality.
- euros 250,000 for final evaluation in according to the evaluation framework of the ministry.
