Results

Water

1.1. Drinking Water

Indicators

1.1.A. Number of people who gained access to an upgraded drinking water source, as a result of Dutch support.

Measurements:

- Individual result:
  Comment: As the provision of durable solution (construction of a small town water supply scheme) is based on the findings of the feasibility study, the result for this target is currently pending.

1.1.B. Number of people who gained access to basic drinking water, as a result of Dutch support

Measurements:

- Individual result: 11750
  Comment: On Matemo Island, 600 people benefited from the rehabilitation of two wells in Reweculo and Milamba, and an additional 500 people benefitted from the construction of two community rainwater harvesting systems, one of which was installed at the health centre.
  The rehabilitation of rainwater systems in four schools (three in Matemo and one in Kiramba), providing 1,400 children with access to water.
  1,850 IDP households in vulnerable areas of Ibo received Rainwater harvesting kits, reaching a total of 9,250 individuals.

1.1.E. Number of people who gained access to safely managed drinking water, as a result of Dutch support

Measurements:

- Individual result:
  Comment: As the provision of durable solution (construction of a small town water supply scheme) is based on the findings of the feasibility study, the result for this target is currently pending.

1.2. Sanitation & Hygiene

Indicators

1.2.B. Number of schools that gained access to basic sanitation, as a result of Dutch support

Measurements:

- Individual result: 9
  Comment: The completion of 18 semi-permanent learning spaces and 18 gender-sensitive latrines in 9 schools has significantly contributed to children's access to education in safe and conducive learning spaces. These spaces are estimated to provide 1,800 children access to improved learning facilities and minimum WASH package.
- Individual result: 9
  Comment:

1.2.C. Number of healthcare facilities that gained access to basic sanitation, as a result of Dutch support

Measurements:

- Individual result: 6
  Comment: One out of two Healthcare Facilities (HCF) was supported through this Dutch grant. The grant targets two HCFs, one in Ibo Island and one in Matemo Island. To that end, the HCF in Ibo Island was supported by the Red Cross through the construction of WASH facilities. UNICEF is planning to complement the activities of the Red Cross through the WASH Facilities Improvement Tool (WASH FIT)3 approach during 2024. UNICEF supported the provision of the WASH package through implementing a rainwater harvesting system in the Matemo HCF.
  In addition, 4 multi-purpose centres (MPCs) benefited from the construction of four accessible latrines equipped with handwashing facilities for people with disabilities, providing the WASH minimum package (200 per cent of target).
- Individual result: 2
  Comment:

1. Improved access to Water, Sanitation and Hygiene (WASH)

Sustainable access to clean drinking water and sanitation and hygiene services is not only a human right, but also essential for the health of adults and children, and thereby for social-economic development. Our 2030 target is to provide 30 million people with sustainable access to safe drinking water and 50 million people with sustainable access to an improved sanitation service.

Learning questions

What have we learned from this activity for the result area Improved access to Water, Sanitation and Hygiene (WASH)?
Measurements:

What has been achieved by this activity on the result area Improved access to Water, Sanitation and Hygiene (WASH)?
Measurements:

- Individual result: Improved awareness of the importance safe sanitation facilities.
  Comment:
- Individual result: The project design was finalized and the tender launched at the end 2024, enabling the start of construction during Q1 of 2025. The contract will be subject to approval by Tribunal Administrativo, which can take time and eventually generate delays.
  Comment:

2. Water Management

Water is an important factor for development, but too much, too little or too dirty water can be very harmful to development. It is important that everyone has access to sufficient water of good quality and is protected against water related disasters. Additionally, it essential to safeguard biodiversity and to protect and restore water-related ecosystems. NL MFA promotes sustainable withdrawals and supply of freshwater to address water scarcity (6.4), implementation of IWRM at all levels, including through transboundary cooperation (6.5) and protection and restoration of water-related ecosystems (6.6). Target: providing 3 million people per year (on average) with improved river basin management and safe deltas, as a result of Dutch support.

Learning questions

What have we learned from this activity for the result area Water Management?
Measurements:

- Individual result: The aquifer system of Ibo district are extremely vulnerable to climate change, and therefore proper water management is of utmost importance.
  Comment: Ibo district are extremely vulnerable to climate change, and the risk of advancing seawater intrusion is high, especially when large quantities of fresh groundwater are substracted from the aquifer system. Proper water management is of utmost importance. Required measures are setting up a effective groundwater monitoring network and groundwater model and balancing groundwater abstraction and recharge. At the same time, an awareness campaign is required to control the water demand. ARA-Norte is the water authority, responsible the management of the water resources.

Food and Nutrition Security

A. Malnutrition

Indicators

Reach A.2.2. Number of people directly reached with activities aimed at temporary/partial improvement of their nutritional situation
Measurements:

- Individual result: 6416
  Comment: This grant supported 98 Integrated Mobile Brigades (IMBs) to deliver health and nutrition services to 14 communities, resulting in the screening of 6,416 children for acute malnutrition (3,851 girls and 2,565 boys), surpassing the target by 28 per cent. The target was overachieved due to increased demand, resulting from population migration from Quissanga district to Ibo district due to the armed conflict.
  Additionally, 283 children aged 6-59 months received vitamin A supplementation, 3,322 children aged 12–59 months were dewormed, 39 children aged 6–59 months were treated for severe acute malnutrition (SAM), and 134 children

aged 6-59 months were treated for moderate acute malnutrition (MAM). The grant also supported 554 lecture sessions on key messages about infant and young child feeding (IYCF), reaching 5,536 caregivers.

- Individual result: 9087
  Comment:

1. Ending hunger and malnutrition

Our 2030 target is to lift 32 million people out of undernourishment, especially women and children.

Indicators

A.0. Improvements towards desired changes, transitions or transformations in nutrition environments
Measurements:

General Theme

General theme - only to be used for Activity specific indicators

Indicators

Improvement of mental health of Internally Displaced Persons (IDP)
Measurements:

- Individual result: UNICEF implemented a successful child protection program in Ibo district reaching 2,138 children with mental health and psychosocial support.
  Comment: UNICEF implemented a successful child protection program in Ibo district reaching 2,138 children with mental health and psychosocial support. With the support of 24 trained community-based animators (12 woman), children affected by conflict were engaged in recreational activities. These activities included free play, arts with local materials, drawing and painting, fostering social interaction with peers and adults, thereby improving their overall well-being.
- Individual result: 6,000 children, including 2,500 girls reached with community-based mental health and psychosocial support services.
  Comment:

Education

Participating students

Increased number of graduates from the target group, related to the focus sectors.

Indicators

# of young people reached with skills-building group training
Measurements: Baseline: 0

- Individual result: 5553
  Comment: UNICEF delivered 6,084 individual learner kits, 30 School-in-a-box kits and 24 recreational kits to Ibo District to be used for the 2024 school year. These kits are sufficient to support all primary and secondary learners in Ibo (in 2024 estimated to be 5,553 children).
- Individual result: 5589
  Comment:

Education providers

TVET & HE education providers deliver graduates and/or certified professionals from quality, gender inclusive, accessible & flexible education programs matching work field demands (Skills, Knowledge, Attitude - SKA).

Indicators

# of teachers/trainers trained
Measurements: Baseline: 0 Target: 91

- Individual result: 91

Comment: All primary and secondary school teachers in Ibo, as well as other education staff (15, female, 76 male) were trained (91 per cent of target) using the Teachers in Crisis Context (TiCC) package. This covered all primary and secondary education teachers in the district.

- Individual result: 91
  Comment:

Women's Rights and Gender Equality

Life Free of Violence

SDG target(s): 5, 11, 16 Short description: The enabling environment is strengthened to promote zero tolerance for all forms of violence against women and girls in public and private life

Indicators

1.3. # of individuals (disaggregated by type, age and gender) with improved attitudes and practises towards the elimination of all forms of violence, including harmful practices

Measurements: Baseline: 0

- Individual result: 1679
  Comment: 720 adolescent girls successfully completed the Girls Are In Action (GAIA) curriculum as part of an adolescent program. Furthermore 591 (360 girls) children and 368 caregivers (218 woman) were engaged in another cycle of the adolescent program. The curriculum was tailored to the needs of adolescents and aims to empower adolescent girls and boys in five domains: building trust, social-emotional skills and psychosocial support, sexual and reproductive health, safety, prevention of Gender Based Violence (GBV), and entrepreneurship.
- Individual result: 1896
